New Era
Mixing Glass

The New Era stemware and stackable tumblers have a modern vintage style.

The stemware is truly elegant with unique intricate detail making it a perfect fit for any venue. The subtle embossment on the footplate contrasts with the gentle curves of the stem, giving the perfect grip. Add that finishing touch to all your cocktail creations.

The tumblers are produced in a unique way to achieve this consistent and highly detailed embossment which showcases the drink perfectly. Adding the ONIS Xtratuff treatment to the upper part of the glass adds strength, durability helping to reduce breakages and optimising cost in use.

Introducing the new large size cooler to the ever-popular New Era Collection.

The multi-purpose item acts as a perfect cooler for large juices, cocktails and shakes as well as doubling up as a mixing glass for cocktail making.

A great stackable glass for maximum versatility behind the bar.
