

Brilliance

Brilliance is particularly suited to establishments where there is a need to combine style with durability, such as gastro pubs, banqueting, wine bars or busy restaurants. It is one-piece stemware, with taller, slimmer stems than is found in one-piece glassware.

One-piece stemware is inherently stronger than other stemware. Formed from one piece of glass, there are no weak points where stem and/or foot are joined with bowls. The precision burners produce a rim with a minimum bead and a rounded foot that is more resistant to unsightly chipping. The glass is also designed to be thicker at the contact points for added strength needed in rigorous handling. Longer product life means more savings and more profit per serving for operators. In fact, your investment starts paying back profits after just one serving.

One-piece stemware the perfect balance of weight, functionality, and aesthetics. It's the proven leader in the industry for durability and reliability.
