

# John Artis Limited Environmental Policy

John Artis Limited t/a Artis specialises in quality tabletop products for the foodservice industry. We understand that businesses are responsible for achieving good environmental practice and operating in a sustainable manner. We are therefore committed to reducing our environmental impact and continually improving our environmental performance as an integral and fundamental part of our business strategy and operating methods. Artis will endeavour to achieve this through regular performance monitoring and measuring, legal compliance, implementation and sharing best environmental practice.

We aim to comply with all relevant regulatory requirements, improve environmental performance continually, incorporate environmental factors into business decisions, reduce the environmental impact of activities, products and services and increase staff awareness and promote good environmental performance.

## **To deliver this policy, we have the following objectives:**

- continually review, monitor and measure our environmental performance across company procedures, operations and policies and implement best environmental practice across the company
- comply with existing and current environmental legislations and regulations and to ensure that our partners and suppliers are legally compliant
- conserve energy and other natural resources by regular monitoring and setting saving targets every year
- improve efficiency of materials use by reduce-reuse-recycle policy
- target zero packaging waste by maximising reuse and recycle
- provide all staff with relevant environmental and job-specific training
- work with suppliers, contractors and subcontractors to improve their environmental performance

## **To meet our commitments we will:**

- Review our environmental policy on a regular basis
- Develop an environmental management system which will annually review our environmental policies and procedures
- Set targets, monitor and communicate key objectives which will improve our environmental performance
- Monitor water, gas and electric bills with a view to reducing them by using the environmental toolkit we have adopted
- Endeavor to reduce energy consumption in the office and warehouse each year.
- Will increase the use of recycled paper on the premises each year
- We will maintain our good current recycling practice

**Colin Weeden**
