

Honey

VIDIVI
VETRI DELLE VENEZIE

Shines with elegance

Honey, a geometric design inspired by the hexagonal pattern of Honeycomb creating a reflective surface with an intense luminosity and brilliance.

- High Definition Glass – The highest levels of transparency and brilliance with a refractive index of 1.51
- Complete absence of iron – Extreme clarity and pure whiteness with a light transmission of 92%
- Italian Design – Stems from an historic family of glassmakers going back 100's of years
