

Vinoteque

Luigi Bormioli
ITALY

A professional range of stemware, offering high sensorial perception of the olfactory characteristics of many different wine varieties.

Designed specifically to enhance and satisfy the five senses of smell, taste, sight, sound and touch, essential to the olfactory enjoyment of wines, the 'Vinoteque' range is ideal for use by sommeliers and restaurateurs seeking ultimate wine optimisation.

All wines have unique organoleptic properties and need to be served in a suitable glass, in order to maximise its individual characteristics. The shape and dimension of each Vinoteque glass has been scientifically developed to balance and enhance these characteristics.
